

This Administration Wants To Turn Your World Upside Down

- By denying you a fair pay raise
- By turning your job over to a private contractor
- By stripping away your hard-won rights
- By refusing to pay a greater share of your rising health care costs, and more.

But you've got NTEU working hard to look after your interests not only within your agency but in Congress, where key decisions are made.

These are NTEU's priority legislative issues for 2005:

The fight for a fair pay increase; for more help in paying double-digit increases in health care costs; against privatization of your job; against privatization of Social Security; against a one-sided, management-driven personnel system in the Department of Homeland Security; and against expansion of that system to every federal agency.

Be part of the fight.

Join NTEU.
